

ACASS
OWN YOUR JOURNEY®

AIRCRAFT MANAGEMENT

Peerless safety, regulatory, and cost management of your aircraft combined with refreshingly old-school personal attention.

AIRCRAFT MANAGEMENT SERVICES

The complete range of services and expertise required for the operation of a business aircraft.

FLIGHT OPERATIONS

- Detailed startup checklist tailored to each registry, which includes all the required certificates (including Certificate of Airworthiness and Certificate of Registration), licenses (such as Radio Station License), and all operational approvals
- 24/7 multilingual customer care and trip support
- Pilot, engineer, and flight attendant employment, supervision, and training
- Regulatory compliance and Safety Management System (SMS)
- Flight following: Real-time aircraft movement tracking system

MAINTENANCE OVERSIGHT

- Maintenance programs and subscriptions management
- Scheduled and unscheduled maintenance
- Immediate AOG support

COST MANAGEMENT

- Comprehensive and customized monthly and annual financial reporting (expenses and savings breakdowns, expense correlations, digital access to original receipts, client audit.)
- Creative cost savings due to vendor negotiations and purchasing power. We are vendor-independent; our loyalties lie with our customers

PROJECT MANAGEMENT

A senior member of our staff serves as a dedicated Customer Relationship Officer (CRO) to manage every aspect of your account and assume responsibility for the efficient operation of the aircraft. The CRO oversees the operation on a monthly basis and manages any issues that may arise during the course of the program

WHY CHOOSE ACASS?

SUPPORT SHORT OR LONG-TERM NEEDS

Flexible turnkey programs to accommodate the unique requirements of each client. Monthly and yearly management programs available as well as aircraft Entry Into Service (EIS) under temporary management and start up support.

COST SAVINGS AND INVOICING TRANSPARENCY

Advantageous pricing on fuel, insurance, crew training and more, through strong partnerships and considerable purchasing power. All maintenance costs are handled by ACASS on the client's behalf with no added fees.

FLEXIBLE REGISTRATION CHOICE

ACASS offers a variety of registration choices, including Canadian, American, Cayman, Bermudan, Isle of Man, Aruban, and San Marino.

EXPERTS IN AVIATION REGULATIONS

Wide-ranging knowledge of aviation regulations worldwide. Strong relationships maintained with civil aviation regulatory authorities and governmental agencies.

UNPARALLELED INTERNATIONAL EXPERTISE

Extensive experience and vital working knowledge globally. ACASS is a member of the following associations: AsBAA, BAOA, MEBA, NBAA, EBAA, CBAA, IADA.

KEY RELATIONSHIPS

Global network of contacts, including relationships with major aircraft manufacturers and aviation service providers, facilitating the handling of warranties, maintenance program coverage, training and more.
