WHY CHOOSE ACASS?

COMPREHENSIVE, WORLD-CLASS SERVICE

Ferrying or delivering a business jet might sound like a simple matter of getting from one place to another, but, as is often the case, making something look easy takes a great deal of expertise. ACASS has the experience and resources to cover every base.

- Our Flight Operations team handles all regulatory and operational requirements.
- Our Flight Crew Staffing team secures a qualified crew.
- Our Logistics team monitors and secures all flight permits and plans and tracks all aircraft movements.
- Our Legal team organizes the transfer of title as required.

YOUR AIRCRAFT WILL BE SAFE AND SECURE

Your aircraft will be in the hands of a company with decades of experience with civil aviation regulatory authorities and governmental agencies

worldwide; an industry-leading US \$300M insurance coverage; and an IS-BAO Stage 3 registration and proven Safety Management System.

ENTRY INTO SERVICE SUPPORT

ACASS offers Entry Into Service (EIS) support to owners and operators of new and pre-owned aircraft. Before the scheduled ferry or delivery, we ensure all regulatory, operational and administrative requirements are met to obtain flight permissions.

THE RIGHT CREW FOR THE JOB

Since 1994, ACASS has supplied pilots, engineers, and flight attendants to aircraft manufacturers, owners and operators in over 56 countries on 6 continents. With our industry-leading proprietary crew database, we can supply the right ferry staff for any aircraft.
